

## Environmental Policy Statement

Metaltech uk believe that we have a responsibility to care for and protect the environment and, where possible, operate in a sustainable manner.

By maintaining a responsible and proactive attitude to environmental issues Metaltech uk is committed to minimising our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.

It is our priority to encourage our customers, suppliers and business associates to do the same.

### Policy Aims

- Ensure Metaltech uk comply with, and where possible exceed, the legal and other requirements of current environmental legislation and codes of practice.
- Raise awareness of environmental issues through training and development of all employees, and encourage initiatives that enhance environmental performance.
- Minimise the environmental impact of our operations both internally and at customer's sites.
- Minimise the amount of waste produced and maximise the percentage of waste recycled and re-used.
- Promote best practice in environmental management within the company and with our suppliers and customers.
- Implement a continual improvement process by assessing and monitoring the environmental performance of Metaltech uk.
- Limit to a minimum and strive to eliminate all emissions to the atmosphere e.g. dusts and carbon dioxide.
- Minimise energy and water usage in our buildings, vehicles and processes in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.
- Prevent the use of any chemicals that have a detrimental effect on the environment.
- Assess the environmental impact of any new equipment or new works to be undertaken, in advance.
- Respect all clients policies aimed at a better environment.

This policy is fundamental to our core business objectives, and is therefore communicated to all persons working for or on behalf of Metaltech uk. It is their responsibility to support and apply those elements of the policy that relate to their activities.
